OBJECTIVE:

Seeking an internship for Spring 2023/Summer 2023 in Software Engineering/WEB development. I have experience with Python, Java, C and Full Stack Web development.

EDUCATION:

Bachelor of Science in Computer Science

The Pennsylvania State University, University Park, PA
Expected Graduation: May 2024
Cumulative GPA: 3.78/4.00

PROJECTS:

1. COVID-19 live data [GitHub Link](#)

A simple website to check the latest COVID-19 data for a country. It fetches data from an API and shows the data on the page. Users can select a country and the data will be provided to them.

2. Course Scheduler [GitHub Link](#)

A simple system to schedule courses by semester. It uses JavaFX to create the GUI and a database to keep track of all the students, their courses and schedule. It also has some advanced controls like, dropping a student, dropping a course and also waitlisting a student.

3. Notes [GitHub Link](#)

This simple app stores notes in a database. The user can delete, add and view them.

4. Todo [GitHub Link](#)

This simple app stores to-do items in a database and the user can delete, add and view them.

SKILLS: * Python * Java * C * Django * Javascript * HTML and CSS
* Linux * Microsoft Excel, Word, Powerpoint * Windows and MAC

EXPERIENCE:

* **Learning Assistant of OOP with WEB based Applications** (January 2022 – Present)

Help students with their assignments and teach them the principle of Object-Oriented Programming during recitation.
